From the Brussels Gazette, dated April 17.

Rome, April 21.

**Y**esterday the Duke d' Uzeda, Ambassador of Spain, receiv'd Letters by a Courier from the Court of Madrid, which (tis said) contain'd the King's Resolution touching the Differences between this Court and that of Naples, and his Instructions to the said Ambassador to ask Leave for him of the Pope to raise Money by a Tax upon the Ecclesiastical Revenues within his Dominions, to be employ'd against the Hereticks in the present War: And in the Evening his Excellency had a long Audience of the Pope. Count Alberti has brought from the Queen Dowager of Poland, Letters of Thanks to his Holiness for the Honours and good Entertainment she receiv'd in all Places in her Passage through the Territories of the Church to Padua. And her Majesty in the same Letters notified to him, that she had receiv'd Advice from Vienna that the Princes James and Constantine Sobieski her Sons, will not be set at Liberty till after King Augustus's Return to Poland. Cardinal Fournier has desir'd of the Pope, Permission for the most christian King to nominate Persons to the Bishopricks of Provence as they become vacant, and particularly to that of Orange, which Power of nominating to those Bishopricks was granted by Pope Pius IV. to King Henry III. The Ambassador of Malta has receiv'd an Express touching a slight Difference that has happen'd between the great Master of the Order and the Inquisitor; the Occasion it seems was this, An Envoy of Tripoli returning homeward from the Court of France in a French Ship that put into the Port of Malta, sent one of his Retinue to the great Master to ask Leave to land and take a View of the Town, which was granted him. The Inquisitor being inform'd of it reprehended the great Master for giving such Leave to that Envoy, in Breach of the Prohibition he is under to suffer no Renegado to set Foot upon that Island; the great Master excus'd himself alledging that he did not know of that Prohibition; and to avoid embroiling himself with the Court of Rome immediately caus'd the Envoy to go on board again. This Court takes Umbrage at the Emperor's sending considerable Reinforcements into Italy, consisting mostly of Hereticks; and the Congregation for military Affairs have propos'd to augment the Troops of the Church by new Levies.

From the Leid. & Amst. Gaz. dated Apr. 9 & 10.

Rome, March 21. Yesterday the Pope gave a long Audience to the Duke d' Uzeda Ambassador of Spain, who deliver'd to him a Letter from Philip V. his Master, in which he desir'd his Holiness to give him Leave to levy by a Tax one Third of the Revenues of the Clergy and of the military Orders throughout Spain, to enable him to carry on the War. But, 'tis said, the Pope has excus'd himself, alledging he should be forc'd to grant the like Permission to all the other Princes of his Communion that are in the Alliance against the 2 Crowns; or else they would be disoblig'd and blame him for Partiality, upon more manifest Grounds than they do at present. The Sbirris having some Days ago apprehended a Malefactor just before the Duke d' Uzeda's Palace, his Steward interpos'd, told them they ought not to have laid

Hands on the Man so near his Master's Palace without first giving him Notice, and bid them let their Prisoner go; which they did accordingly. The Duke, that he might have no Contest with the Government, immediately made a Declaration, that his Steward had done this without his Knowledge; but finding, notwithstanding this Declaration, that Process was making out against the said Steward, he sent him away to Naples in one of his Coaches. A Tumult happen'd t'other Day in the Roman Seminary; the Students had often complain'd of the bad Victuals they had given them; but finding it to no purpose, they mutinied against the Superior and the other Jesuites; and grew so outrageous that the Fathers were forc'd to call the Soldiers of that Quarter of the City to their Assistance; and the Pope sending a Person to interpose his Authority, the Commotion was soon quell'd: 42 Students, that shew'd themselves the most turbulent on this Occasion, have since been expell'd the Seminary.

From the Paris Gazette, dated April 18.

Rome, March 24. The Ambassador of Venice, has not been at Court for some time; waiting Orders from the Republick, upon a Monitory having been publish'd against some of his Servants, citing them to appear before one of the Courts of Justice on pain of Death, for having assisted in rescuing a Prisoner whom the Sbirris were carrying by the Palace of St. Mark. The Creditors of Don Livio Odescalchi having had Recourse to his Holiness, together with some Persons concern'd to see the last Will of Pope Innocent the XIth executed, he having in that Will given in Charge to Don Livio to build 2 Chapels; these People, I say, having had Recourse to his Holiness, to procure satisfaction from that Prince, he has been oblig'd to sell the Estate of the Duchy of Cerri, reserving to himself the Title, to satisfy them. The said Estate is bought by some Florentines, for 425000 Crowns.

From the Amst. Gazette, dated April 17 and 24.

Rome, March 28. and April 4. The 25th of March, the Pope went with a numerous Cavalcade, to the Church call'd the Minerva, where he distribut'd 400 Notes, payable by the Apostolical Chamber, for Portions for poor Maidens; as is the Annual Custom. A Congregation of Bishops and Regulars having by the Pope's Order taken into Consideration the Case of a profess'd Nun, who petition'd for a Dispensation from her Vow, discovering her self to be a Hermaphrodite; they have given Judgment upon it, that she shall quit the Convent, but shall keep her Vow of Chastity, as a secular Priest.

From the Leiden Gazette, dated April 23. &c.

Basil, April 16. The general Assembly of the Cantons will be open'd to Morrow, at Baden. We are assur'd all the Roman Catholick Cantons have sent Deputies to it; and 'tis believ'd the Project of the Helvetic Body's offering their Mediation of a general Peace to the Princes and States that are at War for the Succession of Spain, will be debated in this Diet: It being certain that the *Adventure*, (by which Term the Marquis de Puiseux calls the *Defeat*) of the Baron de Pointis, has made the Creatures of France and of Philip V. redouble their Endeavours to bring this Project to Maturity. 'Tis observ'd they have already prevail'd with the Roman Catholick Cantons to be on a sudden more cool and compliant in the Affairs of Tockenbourg and Neukirch than was expected:

expected: And we hear that the Cantons of Switz and Glaris, have by a Letter acquainted the Regents of Zurich, that they are ready to accept, on certain Conditions, the Mediation of the Cantons of Zurich, Bern, Lucerne, and Solothurn, (which was in vain propos'd to them in the last general Diet,) for accomodating the Contest between them and the Abbot of St. Gall about the Affair of Tockenburgh.
